

Products Overview

Sensus domestic / residential meters incorporate the latest design concepts with modern engineering materials to provide lighter weight, easier to handle, more durable meters that require less maintenance and offer greater life expectancy. They feature a modular design that reduces repair time and costs. They are available in both temperature compensated and non-temperature compensated versions.

Specifications

Model :	MR-12
Dimension :	H 14.5 inch W 11.5 inch D 9.5 inch
Approx. Weight :	21 Lbs.
Flow Capacity :	NG 24 m ³ /Hr LPG 15 m ³ /Hr
Max Inlet Pressure :	25 PSI
Operating Temperature :	- 30°F To 150°F
Connections :	MNPT 1"
